1. Install Ubuntu Desktop Version
2. What is the different between `cat` and `more` command?
3. What is the difference between `rm` and `rmdir` using man?
4. Create the following hierarchy under your home directory:

```
        dir1                    docs
        /  \                     |
    dir11  dir12               mycv
      |
    file1
```

5. Remove dir11 in one-step. What did you notice? And how did you overcome that?
6. Then remove dir12 using `rmdir -p` command. State what happened to the hierarchy (Note: you are in your home directory).
7. Copy the `/etc/passwd` file to your home directory making its name is mypasswd.
8. Rename this new file to be oldpasswd.
9. The output of the command `pwd` was /home/user. Write the absolute and relative path for the file mycv
10. You are in /usr/bin, list four ways to go to your home directory
11. List Linux commands in /usr/bin that start with letter w
12. Display the first 4 lines of /etc/passwd
13. Display the last 7 lines of /etc/passwd
14. Display the man pages of passwd the command and the file sequentially in one command.
15. Display the man page of the passwd file.
16. Display a list of all the commands that contain the keyword passwd in their man page.
